DETAILED ACTION

1. This action is responsive to RCE received on August 23, 2004. Claims 7, 25 and 42 were canceled. Claims 1-6, 8-24, 26-41 and 43-48 are pending examination.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-6, 8, 24, 30, 33, 36, 39-41 and 43-48, drawn to sending delay disable command to a server, classified in class 709, subclass 235.
 - II. Claims 9-15, 26-27, 31, 34 and 37, drawn to sending a push packet to avert transmission delay, classified in class 709, subclass 235.
 - III. Claims 16-23, 28-29, 32, 35 and 38, drawn to sending a prime packet to avoid a transmission delay, classified in class 709, subclass 235

The inventions are distinct, each from the other because of the following reasons:

Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as sending a push packet after sending a set of packets and invention III has a separate utility such as sending a prime packet before sending a set of packets. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
4. A shortened statutory period for response to this action is set to expire thirty days from the mailing of this communication. Failure to respond within the period for response will cause the application to become abandoned (35 USC 133). Extension of time may be obtained under provision of 37 CFR 1.136(A).
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hussein A El-chanti whose telephone number is (703)305-4652. The examiner can normally be reached on Mon-Fri 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ario Etienne can be reached on (703)308-7562. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
